DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 10-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 fails to clearly set forth a combination of structure, e.g. “a signal input”, line 3 and “a signal output”, lines 4-5, are not structure. Also in claim 10, the structural connections between the recited elements fail to clearly stated. Finally in claim 10, the “feedback loop” of line 10 fails to be clearly defined. The “sigma-delta modulator” of claim 11 fails to be clearly related to the “comparator” of claim 10 and the “feedback loop” of claim 12 fails to be clearly related to the “feedback loop” of claim 10. The phrases “the clock signal”, claim 15 and “said...adding unit”, claim 16, lack clear antecedent basis.

Allowable Subject Matter

2. Claims 10-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Specification

3. It is improper for the specification to refer to claims, e.g. note line 7 of page 1.

IDS

4. It has been noted that the IDS of 21 March 2005 should apparently have three pages but only two pages have been received.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
